Part I - General Administrative Share of Plant Services Costs					
California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (m operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs at administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration appercentage of square footage occupied by general administration.	tributed to general

Part II - Adjustments for Employment Separation Costs					
When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition					
to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal					
or mass" separation costs.					
Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board					
policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs					
may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation					
costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter					
these costs on Line A for inclusion in the indirect cost pool.					
Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their					
employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden					
Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal					
programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general					
administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.					
A. Normal Separation Costs (optional)

C. Straight Indirect Cost Percentage Before Carry-Forward Adjustment	
(For information only - not for use when claiming/recovering indirect costs)	
(Line A8 divided by Line B19)	4.04%
D. Preliminary Proposed Indirect Cost Rate	
(For final approved fixed-with-carry-forward rate for use in 2023-24 see www.cde.ca.gov/fg/ac/ic)	
(Line A10 divided by Line B19)	3.72%
Part IV - Carry-forward Adjustment	
The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect	
cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates	
the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the	
approved rate was based.	
Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for	
use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs,	
or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than	
the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.	
A. Indirect costs incurred in the current year (Part III, Line A8)	5,851,609.54
B. Carry-forward adjustment from prior year(s)	
1. Carry-forward adjustment from the second prior year	373,014.76
2. Carry-forward adjustment amount deferred from prior year(s), if any	0.00
C. Carry-forward adjustment for under- or over-recovery in the current year	
1. Under-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect	
cost rate (4.62%) times Part III, Line B19); zero if negative	0.00
2. Over-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of	
(approved indirect cost rate (4.62%) times Part III, Line B19) or (the highest rate used to	
recover costs from any program (4.62%) times Part III, Line B19); zero if positive	(463,104.64)
D. Preliminary carry-forward adjustment (Line C1 or C2)	(463,104.64)
E. Optional allocation of negative carry-forward adjustment over more than one year	
Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which	
the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that	
the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more	
than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.	
Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward	
adjustment is applied to the current year calculation:	3.72%
Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward	
adjustment (\$-231552.32) is applied to the current year calculation and the remainder	
(\$-231552.32) is deferred to one or more future years:	3.88%
Option 3. Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward	
adjustment (\$-154368.21) is applied to the current year calculation and the remainder	
(\$-308736.43) is deferred to one or more future years:	3.94%
LEA request for Option 1, Option 2, or Option 3

Option 2 or Option 3 is selected)	(463,104.64)

STANDARD NOT MET - Projected P-2 ADA to enrollment ratio is above the standard for one or more of the budget or two subsequent fiscal years. Provide reasons why the projected ratio exceeds the district's historical average ratio by more than 0.5%.

Explanation:

Baseline ratio is low due to state mandated COVID quarantines and unsigned master agreements on independent studies.

CRITERION: LCFF Revenue

STANDARD: Projected local control funding formula (LCFF) revenue for any of the budget year or two subsequent fiscal years has not changed from the prior fiscal year by more than the change in population, plus the district's gap funding or cost-of-living adjustment (COLA)¹ and its economic recovery target payment, plus or minus one percent.

For basic aid districts, projected LCFF revenue has not changed from the prior fiscal year by more than the percent change in property tax revenues plus or minus one percent.

For districts funded by necessary small school formulas, projected LCFF revenue has not changed from the prior fiscal year amount by more than the district's gap funding or COLA¹ and its economic recovery target payment, plus or minus one percent. ¹ Districts that are already at or above their LCFF target funding as described in Education Code Section 42238.03(d) receive no gap funding. These districts have a COLA applied to their LCFF target, but their year-over-year revenue increase might be less than the statutory COLA due to certain local factors and components of the funding formula.
